

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

stone of an ordinary pattern to be used, while the other one provides for a head and foot-board of wood. Posts of six-inch square stock. Rails, etc., of two-inch stock. Perforations chamfered or not, as desired. The designer can alter either of these to suit any party, or will correspond with parties desiring details of either or any other pattern.—F. T. C.

41. COMMUNION TABLE.—I send this design (Plate 63) and description in reply to "Clericus." Frame of $1\frac{1}{4}$ -in stock; cut panels of $\frac{1}{2}$ in.; backing $\frac{3}{4}$ in.; chamfers, fluted edges, and edges of cut panels blacked. Retable may be omitted. The designs I. H. C. and the Alpha and Omega may be cut or carved of black walnut and planted on, or may be of oak, the same as the material of the communion table itself, and gilded or blacked. Either would be very suitable. The designer will be happy to correspond with the clergyman desiring this communion table with a view to supplying him with the details.—F. T. C.

WE have received a number of answers from other correspondents, but are obliged to hold them over for want of space.

G. H. T., of Albany, N. Y., sends us a description of the "Howe Truss" in reply to Wm. E. H. Query, No. 33, and forwards a sheet of drawings in illustration. We are sorry we cannot make use of the latter, owing to the coloring, as by our process we can only reproduce drawings in ink on white paper or tracing cloth. We are always pleased, however, to receive drawings or other matter from our correspondents in reply to queries, and in this case will forward the drawings and text to the inquirer.—Ed.

Useful Items for Office and Shop.

A NEW METHOD OF BENDING WOOD.—The bending of hard wood has hitherto been effected by means of hot water or steam—a process somewhat costly as regards fuel, and taking a long time. A patent has recently been taken out in Germany by MM. Bahse and Haendel for making sieve-hoops and like objects by a dry process, more cheaply and in shorter time, from cut wood. Two rollers are used, one above the other and having less velocity, so that it acts by holding back, while the lower extends the wood fibres. When the board, thus bent, leaves the rollers, it is fastened in the mouth of the sieve. The upper roller is fluted, the under one smooth. If two smooth rollers were used, a very much greater pressure would be necessary.

ONE-IDEA MECHANICS.—The following remarks, from a very sensible article in the *American Machinist*, are worthy of considera-

tion: "Many a mechanic has impaired his intellect by too intense study upon a single machine. The road to success through mechanical invention is strewn with wrecks mental as well as financial, mainly because so many anxious plodders in the old beaten track never acquire more than the one idea they had to start with, and often this is positively erroneous. It is well to persevere in a worthy effort, but unwise to run in an old rut without inclination to get out of it. We have met one-idea mechanics who would earnestly insist that their invention or discovery completely upset the elementary principles of mechanism as laid down in the books. When any astonishing claims of this kind are presented, it is well to investigate them carefully before jumping to a conclusion."

Drawings for the Million.

THE complete clearing out of our "Detail Sheets" has encouraged us to offer the following packages of valuable drawings for sale, at the extremely low price of one dollar a package.

Each package will contain over two hundred designs, with all the necessary explanations and descriptions; also, a valuable amount of building information, consisting of tables, rules, recipes, price-lists, etc., etc. Three of these packages bound together will make a very useful work of reference for the architect, builder, carpenter, joiner, or any one connected with the building trades:

Three packages will be sent to one address for... \$2 50
Six packages for..... 4 50
Or the whole eleven packages for..... 8 00

Package No. 1 contains 238 designs of cottages, dormer-windows, verandas, consoles, barge-boards, porches, gates, door-heads, gables, chimney-tops, cornice and brackets, crestings, scroll-work, summer-house, eave brackets, stairs, full-sized sections of hand-railing, bay-window, wooden chairs, tables, writing-desks, perforated woodwork, fancy brickwork, doors, etc., etc. Price \$1.

Package No. 2 contains 15 elevations with plans of cottages and villas, 3 elevations and plans of churches, also over 200 designs of piazzas, bay-window cornices, hood brackets, gable triangles, chimney caps, crestings, window-caps, trusses, dormers, doors and frames, porches, corner finish, canopies, cornice arch, screens, gutters, brick and wood work, beltings, stair-balusters, newel-posts, flues, etc., etc. Price \$1.

Package No. 3 contains 39 elevations and plans for cottages, villas and dwellings; 10 elevations and plans for churches; and 146 designs for brick and stone work, shipwork, half-timbered work, verandas, drawing lessons, windows, doors, etc., etc.; also 26 designs of cornices, panels, etc., for plasterers. Price \$1.

Package No. 4 contains 51 plans and elevations for cottages, villas, barns, stables, and railway stations; also, 5 plans and elevations of churches; and 115 detail drawings of scroll-work, windows, bay-windows, gables, verandas, side finish, newel-posts, shipwork, general house details, bay-window frames, frieze cornices, balustrades, oriel window, fences, gates, vestibule and front door, open timber roofs, etc., etc. Price \$1.

Package No. 5 contains 72 elevations and plans of cottages, city houses, banks, villas, and country houses; also plan and elevation of schoolhouse, and 135 detail drawings of desks, counters, doors, door finish, piazzas, gables, dormers, vainscoting, chimney-cases, ceilings, front gables, porches, verandas, timber roofs, crestings, towers, vanes, stairs, mantels, balusters, newels, grilles, cornices, gateways, railing, etc., etc.

This is an excellent package. Price \$1.

Package No. 6 contains 38 plans and elevations of cottages, villas, and country houses; 3 plans and elevations of churches; and 135 detail drawings of fences, doors, windows, stairs, mantels, verandas, porches, stoops, carved work, gates, summer-house, newel-posts, balusters, wrought-iron work, chimney-tops, gables, examples of furniture, finials, bay-windows, dormers, hoods, arches, oriel, truncated gables, turned work, cornices, church furniture, counters, etc., etc.

Besides the above illustrative and necessary descriptive and explanatory matter, this package contains a series of illustrated papers on the use of the steel square. This package is an excellent one for carpenters and joiners who do work in the country towns, as the details are numerous and easily understood. Price \$1.

Package No. 7 contains 44 plans and elevations of cottages and villas; 164 detail drawings of roofs, mantels, windows, doors, balconies, verandas, stairs, newels, piazzas, vanes, dormers, pews, church finish, chimneys, brickwork, porches, cornices, pinnacles, brick arches, etc., etc. There are also five plans and

elevations of churches, with all the necessary details drawn to scale; also, a railway depot, plans, elevations, and details.

This is perhaps the most useful package in the whole series for the general workman. Price \$1.

Package No. 8, besides containing 60 plans and elevations of various kinds of cottages and other dwellings, has also 123 detailed drawings of miscellaneous designs of a useful character; also 3 plans and elevations for a stable; a tenement-house, and 41 cuts illustrating saw-filing in all its branches.

This package also contains a series of papers on saw-filing that cannot fail to be useful to the operative mechanic. Price .1.

Package No. 9 contains 73 plans and elevations of building; 36 designs for centre-pieces, cornices, and other plasterwork; 2 churches, stable with all the necessary drawings, and the usual amount of detail drawings; also 7 cuts illustrative of saw-filing, including all necessary descriptive and explanatory matter. Price \$1.

Package No. 10 contains over 30 elevations and plans of handsome cottages; 3 for churches, one a frame showing all the details and framework; also three stables, a town bank with details of interior finish, showing desks, counters, screens, teller's office, etc., etc. This package also contains 30 illustrations on hand-railing with all necessary text, and the usual amount of detail drawing.

An excellent package. Price \$1.

Package 11 contains a large number of illustrations consisting of cottages; 36 examples of ornamental brickwork; 40 examples of plasterwork, panels, cornices, centre-pieces, etc., etc.; also full-sized details of cottage finish. This package also contains the plans and elevations of a store, with a full set of details, showing front, counters, shelving, cornices, cases for goods, tables, and all other necessary details. There are also a number of designs for gates and fences, and many other useful drawings. This is one of the best packages in the series. Price \$1.

Each of the above packages will contain five, or more, large detail sheets, 22x34 inches, 40 sheets 9x12 inches, of original or selected designs, and 120 pages of reading matter relating to the building and decorative trades.

N.B.—We wish it distinctly understood that all the above matter was published in the AMERICAN BUILDER during the years 1874, 1875, 1876, 1877, and 1878; therefore parties having copies of the BUILDER for those years will have no use for any of these packages.

One or more of these packages will be sent to any address in the United States or Canada, post-paid, on receipt of price.

Send all letters containing money, checks, or post-office orders to
CHARLES D. LAKEY, Publisher,
176 Broadway, New York City.

CHEAP DRAWINGS.

OWING to the great demand for these drawings, our stock has been reduced to such an extent that we can only furnish them in lots of six sheets to each address, which we offer for the sum of twenty-five cents.

Each sheet is 22 by 34 inches, and the whole six sheets contain over 100 new and original designs, consisting of stoops, cornices, scroll-work, piazzas, dormers, window-heads, front-entrance, cornices, balconies, finials, large-sized elevations, sections, and details of a handsome veranda. Full-sized details of inside finish, and of stairs, newels, front door, and frame. Designs for store finish, counters, shelving, desks, stairs, newels. Details of staircase, door, wainscoting, gable, etc.

We will send the whole six sheets to one address for twenty-five cents. All the above drawings have appeared in the AMERICAN BUILDER.

Address all letters to Charles D. Lakey, Publisher, 176 Broadway, New York.

THE AMERICAN BUILDER

IS THE OLDEST

BUILDING JOURNAL

IN THE UNITED STATES, AND IS AT PRESENT THE ONLY CHEAP

ARCHITECTURAL JOURNAL

ON THIS CONTINENT.

Price, \$1.50 per annum. The purchaser gets each year 48 quarto pages of first-class illustrations of Villas, Cottages, Farm Houses, Gates, Fences, Barns, Stables, etc., etc., besides 192 pages of reading matter.

The following Contents for July number will give a general idea of the character of the Journal:

CONTENTS.

	Page
Science and Art.....	149
Concerning Bricks.....	149
Punctuality.....	150
Minor Editorials.....	151
Making Mortar.....	152
Composition Ornaments.....	153
How to Grind Edge Tools.....	154
Keys and Locks.....	154
Questions and Answers.....	154
Our Lithographic Illustration.....	156
New Publications.....	156
Foundations.....	161
Building Notes.....	162
Miscellaneous Notes.....	164
